ITEM - select this one	Ref.	Caliber	Contour	Length	Twist	Price
<p>¹We can usually duplicate any factory contour a customer sends to us, or furnish a blank with contouring dimensions to your specifications, This has a <u>minimum</u> additional charge of \$25.00 over the base cost of a barrel</p> <p>²Palma contours are available in calibers other than .30 and can be finished at lengths other than 30" which will change the cost of these barrels. Please call with questions.</p> <p>³These are our standard breech diameters for these contours. Upon request, you can choose to have this diameter altered.</p> <p>⁴ Sporter contours smaller than a #3 will incur an additional \$20.00 charge due to their difficulty in finish turning</p> <p>The above contour numbers are exclusive to Krieger Barrels. The contour numbers of <u>other</u> barrel manufacturers do not necessarily correspond to our contour numbers.</p>
