¹We can duplicate any factory contour or furnish a blank with contouring dimensions to your specifications, usually without additional cost.

²Palma contours are available in calibers other than .30 and can be finished at lengths other than 30" which will change the cost of these barrels. Please call with questions.

³These are our standard breech diameters for these contours. Upon request, you can choose to have this diameter altered.

The above contour numbers are exclusive to Krieger Barrels. The contour numbers of other barrel manufacturers do not correspond to our contour numbers.
